

Transportation Task Force

Transportation Initiatives

- Encourage innovative transportation technology for future development projects
- Provide innovative public transportation solutions for Long Island
- Work to accelerate cost effective road improvements on Routes 347/454, 110, 111, 112, Sagtikos Parkway, Meadowbrook Pkwy and others.
- Develop solutions to improve traffic flow in Melville and Uniondale
- Reopen LIRR Train Station at Republic Airport

631-425-2700

The Transportation Task Force's mission is to build a sustainable future through improved and smarter transportation on Long Island

*The Transportation Task Force will participate in **Action Long Island's***

Long Island Energy Conference:

Exploring LI's Role in the Global Energy Future

October 2011

Action Long Island will bring together recognized experts in their respective disciplines to discuss, evaluate and decide, based upon the information currently available, a reasonable course of action. The course of action should include establishing a viable path in the direction of renewable energy resources, **innovative transportation**, and realistic development of industry for Long Island.
